

## Solution Overview

Mainland will review your unique environment and our VMware Certified Professionals will provide guidance on current best practices for configuring and managing your VMware vSphere infrastructure. Working together with your team, we will assess your Virtual Infrastructure systems and provide concrete, actionable recommendations for opportunities to optimize and better utilize virtualization in your environment. Our Virtualization Health Check Report outlines the health of your Virtual Infrastructure and lists recommendations and time estimates to remediate as well as high, medium and low priority indicators.

## Benefits

Some of the benefits you will receive by partnering with Mainland and leveraging our Virtualization Health Check are:

- Ensure your Virtual Infrastructure is configured with VMware best practices
- Ensure that your Virtual Infrastructure is running optimally
- Understand the gaps between your Virtual Infrastructure and best practices
- Reduced rate on Mainland's professional services to remediate any issues
- Identification of risks within the Virtualization environment that could result in costly, unplanned downtime or poor performance

## Deliverables

- Provide project management for the engagement
- Review all system logs for Virtualization hosts and systems
- Compare current state (and risks) with best practices to document the gap analysis
- Provide a formal written report and presentation of findings and recommendations
- Gather and document information about current state as it pertains to existing Virtual Infrastructure, including your evolving and anticipated business requirements
- Provide an estimate of services and timeliness required to remediate issues and close the gap
- Provide recommendations on "closing the gap", including high-level architecture and budgetary pricing (if required)

## Why Mainland

Mainland provides solutions that protect, optimize and manage corporate IT infrastructure. As the rate of change and growth in the corporate digital world accelerates, there comes a point where you need to think and act differently. We do.

Mainland, a VMware Enterprise partner has established itself in the minds of Customers, Business Partners, and VMware as the premier "go-to" organization regarding VMware products, services and solutions in Western Canada. Our highly trained VCP certified virtualization experts all have operational backgrounds in virtualization which proves to be a valuable consulting asset on every engagement.
