

Solution Overview

Mainland has been providing solutions that protect, optimize and manage complex IT infrastructure for over 20 years. The vSphere Jumpstart provides you with an onsite production configuration and knowledge transfer using VMware vSphere and vSphere vCenter Server. This engagement ensures that your new Virtual Infrastructure is installed with the latest version of vSphere by Mainland's VMware Certified Professionals using proven Mainland and VMware best practices. Two Physical to Virtual (P2V) conversions based on VMware/Mainland best practices are included as part of engagement.

Benefits

Some of the benefits you will receive by partnering with Mainland and leveraging our vSphere Jumpstart are:

- Access to and discussion with VMware certified experts
- Peace of mind that your vSphere infrastructure is built with VMware and Mainland real world best practices
- Comprehensive and complete knowledge transfer of the build and the end state environment
- Fully tested and production ready Virtual Infrastructure
- Lowers server consolidation risk by using our proven project methodology and years of virtualization expertise

Deliverables

- Complete Project Management for the engagement
- Provide guidance on site preparation for the vSphere engagement
- Installation of VMware ESX as per Mainland and VMware best practices
- Install VMware vCenter Server as per Mainland and VMware best practices
- Configure vCenter Server and ESX as per Mainland and VMware best practices
- Assistance and guidance with building virtual machine templates and customization specifications
- Provide informal instruction on operation and administration of the vSphere environment
- Validate of vSphere features, functionality and fault-tolerance
- Comprehensive documentation package

Why Mainland

Mainland provides solutions that protect, optimize and manage corporate IT infrastructure. As the rate of change and growth in the corporate digital world accelerates, there comes a point where you need to think and act differently. We do.

Mainland, a VMware Enterprise partner has established itself in the minds of Customers, Business Partners, and VMware as the premier "go-to" organization regarding VMware products, services and solutions in Western Canada. Our highly trained VCP certified virtualization experts all have operational backgrounds in virtualization which proves to be a valuable consulting asset on every engagement.
